

Senior Thesis/Project Topic Available

Nanomaterials and Manufacturing Laboratory (NML) is focusing on nanocomposite materials and additive manufacturing (AM) or 3D printing. Currently there are topics available for Senior Thesis including the following topics:

1. Design of Ceramic Ink for Direct Ink Writing (DIW)
2. Design of Thermoplastic Composites Filament for Fused Deposition Modeling (FDM)

Please send an email to discuss on the topics to Dr. Junjun Ding (dingj@alfred.edu) if you are interested. Or walk-in at BMH 117!
